

QUALITY, ENVIRONMENT AND STONEPT POLICY STATEMENT

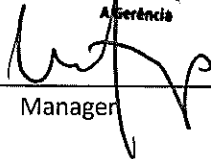

At Silaco, we are aware of our responsibilities towards the environment. Thus, Silaco is committed with the continual improvement of Quality and Environment in its services and contributing to sustainable development.

We aim to achieve this by committing to the following:

- provide products and services of the highest quality, in conformity with the established requirements, aiming to meet the needs of all interested parties;
- develop an effective and competitive management system, based on continuous improvement, cost control and equipment renewal;
- comply with requirements and current legislation, as well as operational and environmental regulations, aiming at environment protection;
- respect the environment through pollution prevention and control, rational utilization of resources, and minimisation and separation of waste;
- collaborate with the surrounding community, giving response to solicitations and claims that may originate there;
- maintain a close collaboration with its technological partners and its suppliers;
- engage and provide continuous training to employees in order to maintain the highest possible standard in respect of environment protection and Health and Safety regulations;
- promote product innovation;
- promote innovation in environmental solutions;
- guarantee effective and good performance in all of the company's equipment;
- ensure the implementation of the StonePT management system;
- comply with all legal requisites applicable to its activity;
- promote the continuous improvement of the Quality and Environment Management System and its efficacy.
